

Project: Student Wellness App

Students: Ananya Iyer, Shreyas Ghosh Roy, Jasraj Baweja, Sean Rogers

We decided to use Github Issues and Project boards to work on our project and track our progress. To the left are the issues created along with their assignments.

Below are some records of our progress as we worked on this preliminary basis for our site.

More complete explanations of our issues follow below:

File Structure #1

annuma99 opened yesterday

Tasks

- Create project folder structure
- Add files:
 - index.html
 - about.html
 - service.html
 - contact.html
 - css/style.css
 - images/
- Push initial commit to GitHub.

Create sub-issue

annuma99 self-assigned this yesterday

annuma99 closed this as completed yesterday

annuma99 added this to @annuma99's CS146 Project and @annuma99's CS146 Project yesterday

github-project-automation moved this to Backlog in @annuma99's CS146 Project yesterday

github-project-automation moved this from Backlog to Done in @annuma99's CS146 Project yesterday

github-project-automation moved this from Backlog to Done in @annuma99's CS146 Project yesterday

Build index.html Homepage #2

annuma99 opened yesterday

Use semantic tags

- Add navigation links to all pages
- Add placeholder content
- Link external CSS stylesheet.

Create sub-issue

annuma99 self-assigned this yesterday

annuma99 added a commit that references this issue yesterday

annuma99 closed this as completed yesterday

annuma99 added this to @annuma99's CS146 Project and @annuma99's CS146 Project yesterday

github-project-automation moved this to Backlog in @annuma99's CS146 Project yesterday

github-project-automation moved this from Backlog to Done in @annuma99's CS146 Project yesterday

annuma99 moved this from Done to In progress in @annuma99's CS146 Project 1 hour ago

annuma99 moved this from In progress to Done in @annuma99's CS146 Project 1 hour ago

Create Remaining HTML Pages #3

annuma99 opened yesterday

Create:

- about.html
- services.html
- contact.html

Each page must:

- Use semantic HTML
- Include navigation menu
- Link back to index.html
- Link to CSS stylesheet.

Create sub-issue

annuma99 assigned jayabawa yesterday

annuma99 closed this as completed in 449777 yesterday

annuma99 added this to @annuma99's CS146 Project and @annuma99's CS146 Project yesterday

github-project-automation moved this to Done in @annuma99's CS146 Project yesterday

Create Base CSS Stylesheet #4

annuma99 opened yesterday

Tasks

- Create style.css
- Add styles for:
 - body
 - header
 - navigation
 - main content
 - footer
- Ensure readable colors and spacing.

Create sub-issue

annuma99 assigned jayabawa yesterday

annuma99 added a commit that references this issue yesterday

annuma99 added this to @annuma99's CS146 Project and @annuma99's CS146 Project yesterday

github-project-automation moved this to Backlog in @annuma99's CS146 Project yesterday

annuma99 closed this as completed 7 hours ago

Implement Responsive Layout #5

annuma99 opened yesterday

Make sure the website works on:

- Desktop
- Tablet
- Phone

Use media queries, for example:

```
@media (max-width: 1024px) {  
  /* tablet layout */  
}  
  
@media (max-width: 600px) {  
  /* phone layout */  
}
```

Make navigation and layout adjust properly.

Create sub-issue

annuma99 assigned shreyashshetty yesterday

annuma99 added this to @annuma99's CS146 Project and @annuma99's CS146 Project yesterday

github-project-automation moved this to Backlog in @annuma99's CS146 Project yesterday

shreyashshetty closed this as completed in 06a099 2 hours ago

github-project-automation moved this from Backlog to Done in @annuma99's CS146 Project 2 hours ago

Improve Page Layout & Visual Design #6

annuma99 opened yesterday

Tasks

- Align sections
- Add margin/padding
- Improve navigation bar styling
- Ensure images resize properly
- Make site look clean.

Create sub-issue

annuma99 assigned shreyashshetty yesterday

annuma99 added this to @annuma99's CS146 Project and @annuma99's CS146 Project yesterday

github-project-automation moved this to Backlog in @annuma99's CS146 Project yesterday

shreyashshetty added a commit that references this issue 2 hours ago

annuma99 closed this as completed 11 minutes ago

github-project-automation moved this from Backlog to Done in @annuma99's CS146 Project 11 minutes ago

Validate HTML Pages #7

annuma99 opened yesterday

Use:

- https://validator.w3.org/validate_by_html

Validate:

- index.html
- about.html
- services.html
- contact.html

Fix any validation errors.

Create sub-issue

annuma99 added this to @annuma99's CS146 Project and @annuma99's CS146 Project yesterday

github-project-automation moved this to Backlog in @annuma99's CS146 Project yesterday

annuma99 assigned rogerr2-beep 7 hours ago

sean-drogers 6 hours ago

All four HTML pages were validated using the W3C validator and no errors or warnings were found.

annuma99 moved this from Backlog to Ready in @annuma99's CS146 Project 1 hour ago

GitHub Project Management #8

annuma99 opened yesterday

Create GitHub Project board and:

- Add all issues
- Assign team members
- Move issues across:

To Do

In Progress

Done

Take screenshots for submission.
